1.00 ROBOTIC IMPLANTS

Image - Implants

The official Paizo guide to technology introduced a type of technological equipment known as cybertech, which can be implanted into a living creature, augmenting the creature's abilities with the power of modern or futuristic science. While most cybertech is designed by technologists, some is recovered parts of robots or machinery. The following are recovered parts:

CYBERLINK

Price 11,000 gp; Slot 1
Install DC 28; Implant

Harvested from a dinosaur's frontal cortex of the nearby robots and a range of 120 feet, but communicate with n with a cyberlink or sil to operate computer without the need of panels.

Additionally, three tiles override the program telepathy. The robot user's intelligence in single command, as t

At the GM's discretion, a robot equipped with a recovered cyberlink, in which ca
